

You are invited to **CELEBRATE THE GARDEN**  
**SATURDAY, NOV. 5th**

**11AM-1PM** by the

Bernie Whitebear Daybreak Star Garden is home to over 60 species of native plants which are key to supporting the health, welfare, and traditions of the Coast Salish and other regional indigenous peoples.

A year ago, The Friends of Bernie Whitebear Daybreak Star Garden held a Public Forum to explore this question: what can we do to further develop the Garden as a place of learning and healing—a living bridge between generations and cultures?

Over the the past year, the Friends of the Garden have worked to refurbish the Garden, to develop a knowledge and skill sharing exchange, and to design new signage to make information about the plants more accessible. We invite you to tour and celebrate with us!

This project has been sponsored by the **United Indians of All Tribes Foundation** and a grant from the **City of Seattle Department of Neighborhoods**.
